1. Safety Information

Review this owner's manual and read all warning labels on the machine prior to use.

The three main safety notifications used in this manual and on the warning labels are **WARNING**, **CAUTION** and **NOTICE**. They have specific meanings and indicate the potential dangers from misuse of the machine.

	"WARNING!" indicates a hazardous situation, which, if not avoided, could result in death or serious injury. These serious injuries could include permanent loss of function or significant disfigurement, disability, considerable pain and suffering, amputations, severe burns, and loss or impairment of vision or hearing. Take all necessary precautions to avoid unnecessary injury.
	"CAUTION!" indicates a hazardous situation, which, if not avoided, could result in minor or moderate injury.
	"NOTICE" indicates practices that do not involve physical injury but may damage the machine.

1.1 Safety Precaution labels

 WARNING ADVERTENCIA CUIDADO
-This machine is not explosion proof rated. -Review product label, Material Safety Data Sheet, and HMIS rating of materials and exposures prior to mixing to determine potential hazards. -Use in dry and well-ventilated environment where dust and flammable vapors are not present; risk of physical injury exists if used in hazardous environment. -All containers must be properly sealed and void of leaks. -Esta máquina no tiene la clasificación de prueba de explosión. -Revise la etiqueta del producto, la hoja informativa de datos de seguridad, su clasificación HMIS antes de mezclar y exposiciones de materiales peligrosos para determinar los peligros potenciales. -Use en un ambiente seco y bien ventilado donde polvo y vapores inflamables no estén presentes; Riesgo de daño físico existe si es utilizado en un ambiente peligrosos. -Todos los contenedores deben estar bien sellados y sin fugas. -Esta máquina não está classificada como sendo à prova de explosão. -Ler o rótulo do produto, a ficha de informações de segurança do produto e a classificação HMIS dos materiais antes de misturar para determinar os riscos potenciais. -Usar em ambiente seco e bem ventilado onde não existam poeira e vapores inflamáveis presentes; existe risco de ferimento físico se for usada em ambientes perigosos. -Todos os recipientes devem estar vedados corretamente para evitar vazamentos.

Part No. 1780899

 WARNING ADVERTENCIA AVERTISSEMENT
-Machine must be properly grounded before use; improper grounding could cause electric shock and injury. -Disconnect power cord before servicing, cleaning, or removing any covers, and follow lockout/tagout procedures in owner's manual; failure to disconnect power could cause electric shock and injury. -Review Owner's Manual before installing or operating. -La maquinaria debe ser apoyada correctamente en el suelo antes de usar, el no apoyarla puede causar choque eléctrico y daños. -Desconecte la energía antes de dar mantenimiento, limpiar o quitar cualquier cubierta, y siga los procedimientos de bloqueo/etiquetado del manual, Fallar en desconectar puede causar choque eléctrico y daños. -Revise el manual del usuario antes de instalar u operar. -La machine doit être correctement mise à la terre avant de les utiliser mise à la terre incorrecte peut provoquer un choc électrique et de blessure. -De'branchez le cordon d'alimentation avant de procéder à l'entretien, le nettoyage ou le retrait des capots; suivez la procédure d'isolation/consignation procédures dans le manuel de l'opérateur; E'chec de de'brancher la source d'alimentation peut provoquer shockand électrique blessures. -Re'examiner le fonctionnement manuel avant l'installation.

Part No. 1781570

Safety Information, Continued..

1.2 Safety Precaution Summary

WARNING!

-  Review this owner's manuals before installing or operating.
-  The machine must be properly grounded prior to use. In case of electrical short circuit grounding reduces the risk of electric shock by providing an escape wire for the electric current.
-  If you must repair or replace the power cord or plug, **DO NOT** connect the grounding wire to either flat-blade terminal. The wire with insulating having an outer surface that is green (with or without yellow stripes) is the grounding wire.
-  Check with a qualified electrician if you don't completely understand these grounding instructions, or if you are not sure whether the machine is properly grounded. **DO NOT** Modify the plug provided; if it won't fit in the outlet, have a proper outlet installed by a qualified electrician.
-  Disconnect the power cord before servicing, cleaning, or removing and covers.
-  Follow the lockout/tagout procedures of your company.
-  Do not use the machine in a damp or wet environment. Keep the work area well lit.
-  Do not open the door until the machine comes to a complete stop.
-  To avoid electric shock, don't get the timer, control panel, or wiring wet.
-  This machine is not explosion proof rated.
-  All containers must be properly sealed and void of leaks.
-  Review product label, Material Safety Data Sheet, and HMIS rating of material prior to mixing to determine potential hazards.
-  Do not use solvent-based cleaners or thinners
-  Use in a dry and well-ventilated environment where dust and flammable vapor are not present.

CAUTION!

-  Keep the work area free of clutter and electrical cords.
-  Avoid extension cords. To minimize the risk of improper electrical grounding, extension cords are not recommended. If an extension cord is unavoidable, consult a qualified electrician to determine what type of extension cord will satisfy the grounding, current capacity, and other requirements of the particular situation.
-  Use the proper power source. Refer to the machine data plate on the right side panel or the section 2.1 Specifications in this manual.
-  Keep customers away from the work area. This machine should be used only by properly trained individuals.
-  Do not operate the machine without a can installed.

Product safety labels should be inspected and cleaned periodically to maintain good legibility. Replace any labels that are no longer legible.

 **WARNING: This product may expose you to chemicals including DEHP, which is known to the State of California to cause cancer. For more information, go to www.P65Warnings.ca.gov**

2. Introduction

2.1 Application

Congratulations on your purchase of the 09025 Auto Gyro Mixer. This machine is designed to accommodate standard five-gallon plastic or metal pails weighing up to 120 lb. (54.4 kg), one gallon cans, quart cans, and containers up to 18" tall.

Understand your machine's features and proper operation to take full advantage of its capabilities.

Read this entire manual completely before operating the machine. Practice installing and removing a pail before mixing for the first time.

Keep this manual for future reference.

Always follow all safety instructions!

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area may cause harmful interference in which case the user will be required to correct the interference at his own expense."

Contains Transmitter Module FCC ID: MCQ-XB3M1 & Canadian ID: IC:1846A-XB3M1

2.2 Specifications

Model 09025 (Standard)

Model 09025A (Automation)

Unit Size: **W** 34 in. (86 cm) **D** 44.4 in. (112.8 cm)

H Adjustable 48 in. (122 cm) - 53.7 in. (136 cm)

Weight: 460 lb.

Electric Service: 90-264 V 50-60 Hz

Capacity: 120 lb. (54.4 kg)

Sizes Mixed:

- 1 or 2 quart cans at a time
- 1 or 2 one gallon cans at a time
- 1 5 gallon plastic or metal can
- Maximum can height 18" – to handle metric cans up to 27 liter.

Note: must have standard diameter can bottoms.

Load Height: Adjustable 15.5 in. (39.4 cm) - 20.5 in. (52.1 cm)

3. Installation

MODEL 9025 (shown with optional #6788795 Shelf Kit)

3.1 Prepare for Use

IMPORTANT: Before attempting to operate the machine:

1. Remove all packaging material.
2. Position the machine on a firm, level surface.
3. Follow the electrical connection instructions described above.

3.2 Adjust the Risers (overall height)

⚠ Avoid personal injury! Be sure the machine is stable.

1. Loosen the screws **(A)**.
2. Adjust the crossbar **(B)** to the appropriate height.
3. Retighten the screws.

3.3 Verify the Machine is Level

Adjust any feet under which a piece of paper can fit.

- A.** Loosen the upper jam nut **(A)**
- B.** Turn the foot **(B)** to adjust.
- C.** Tighten the jam nut **(A)** when the feet make full contact with the floor

Repeat with any additional feet that may still need to be adjusted.

4. Operation

4.1 Control Panel

- **E-Stop Push Button (A):** Immediately cuts power to the machine, and Cycles Power.
- **Display (B):** View programming revision, Cycle count, and cycle time remaining.
- **Two-Minute Cycle (C):** Push to set a two-minute cycle, and to increase a cycle in 30 second increments. Note: Can be set to 90 seconds.
- **Three-Minute Cycle (D):** Push to set a three-minute cycle, and to increase a cycle in one minute increments. Note: Can be set to 2 minutes.
- **Extract (E):** Push to extract only 5 Gallon buckets after mixing is complete.
- **Stop (F):** Push to stop the cycle. Any remaining cycle time will be deleted.

On-Off Switch

..Operation, Continued

4.2 Install and Remove Pail

INSTALL:

Warning!

Avoid serious personal injury. Do not mix flammable or combustible materials in this mixer.

1. Open the machine door.
2. Slide the pail under the clamping (top) plate.
3. Position the pail in the grooves on the bottom plate. The grooves on the plate keep the pail in place during mixing.
4. Close the door and start the machine.

NOTICE

The door is locked during mixing.

REMOVAL:

 **WARNING:** Avoid serious personal injury! Do not attempt to override the door lock.

The Door Lock will prevent opening the door while the machine is mixing.

Remove the pail(s) by hand or by pressing the Extract button (only for 5 gallon buckets).

5. Care and Maintenance

⚠ WARNING! Avoid serious personal injury. Always unplug the power cord before performing maintenance tasks.

5.1 Cleaning

⚠ Avoid serious personal injury. Do not use solvent-based cleaners or thinners, or other combustible cleaners.

- Keeping the machine clean is important for reliable operation.
- Remove water-based/glycol colorants or base paints spilled on machine surfaces using lukewarm water and mild detergent.
- To preserve the appearance of the machine, do not use abrasives to clean machine surfaces.

5.2 Maintenance

1) Lubricate the clamp screw and Extractor screw every 6 months or as needed with Mobile 1 Synthetic Grease.

After applying grease, run the machine with a one gallon can to help spread the grease evenly over the entire clamp screw.

6. Troubleshooting

PROBLEM	CAUSE	REMEDY
Machine won't operate	Not connected to power source	Connect to power source
	Emergency E-STOP push button is activated	Turn switch knob 1/4-turn clockwise to disengage
	Machine door does not make contact with limit switch	Adjust switch to make contact with limit switch screw when door is closed
Pail won't fit properly into clamping plates	Pail damaged	Fix or replace pail
Error message	See message displayed	Press the Stop button and turn the machine off/on to clear errors

9. Ordering

Replacement Parts

HOW TO ORDER REPLACEMENT PARTS

Replacement parts can be ordered from Red Devil Equipment Co. by telephone, fax, or email:

RADIA

800-221-1083
763-533-2969
763-533-0015 (FAX)
orders@radiaproducts.com

If you need help in determining the proper part(s) to order, please call Customer Care at 1-800-221-1083. Always indicate the Model and Serial numbers of the machine when ordering replacement parts.

GENERAL PARTS REPLACEMENT POLICIES

While your machine is under warranty, do not attempt on-site repair or parts replacement without first contacting RADIA to protect your warranty. After the warranty expires, replacement parts and recommendations for on-site servicing are available from RADIA. Please Customer Care for assistance.

RESTOCKING FEE

A restocking fee will be charged on all unused parts which are returned.

For instructional "How To" videos please visit:
www.radiaproducts.com

10. Warranty

Equipment Covered Under This Warranty

Models 09025

Warranty

Radia warrants equipment manufactured by it and bearing its name to be free from defects in material and workmanship.

EXCEPT FOR THE WARRANTY SET FORTH HEREIN, RADIA MAKES NO WARRANTY WHATSOEVER WITH RESPECT TO THE EQUIPMENT, INCLUDING ANY (a) WARRANTY OF MERCHANTABILITY; (b) WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE; OR (c) WARRANTY AGAINST INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS OF A THIRD PARTY; WHETHER EXPRESS OR IMPLIED BY LAW, COURSE OF DEALING, COURSE OF PERFORMANCE, USAGE OF TRADE OR OTHERWISE.

This warranty applies only when the equipment is installed, operated and maintained in accordance with written Radia instructions as appearing in the owners' manuals.

This warranty does not cover, and Radia shall not be liable for, any malfunction, damage, or wear caused by faulty installation, misapplication, abrasion, corrosion, inadequate or improper maintenance, negligence, accident, tampering or substitution of non-Radia component parts, modification or use for non-intended purposes. Nor shall Radia be liable for malfunction, damage or wear caused by the incompatibility of Radia equipment with structures, accessories, equipment, or materials not supplied by Radia.

Subject to the limitations set forth above, Radia shall (i) repair or replace the equipment (or the defective part) or (ii) credit or refund the price of such equipment. Costs of labor and transportation for service of machines under this warranty will also be covered during the warranty period if Radia elects to repair or replace the equipment. Normal ground freight will be covered for replacement parts sent within the warranty period. For customers outside of the US and Canada, the warranty is for parts only. Ground or common carrier ground freight will be covered for the return of defective items only. In no case shall Radia's liability exceed the amount of the purchase price.

*All warranty repairs must be executed by a Radia Authorized Service Center or warranty will be voided.

THE REMEDIES SET FORTH HEREIN ARE PURCHASER'S SOLE AND EXCLUSIVE REMEDY and RADIA'S ENTIRE LIABILITY FOR ANY BREACH OF THE LIMITED WARRANTY SET FORTH HEREIN.

Please contact your Radia Relationship Manager at 800-221-1083 for specific questions regarding specific questions regarding warranty terms.
